Microsoft Office Professional 1  
CSP 1203-01  
Spring 2014  
January 13, 2014 - May 17, 2014  
Monday & Wednesday, 1:00 - 1:50 pm Lecture  
2:00 - 2:50 pm - Lab  
A-301  

Professor: Mr. Chris Jauch  
Office: A-326  
Phone: 815.224.0334  
Email: Chris_Jauch@ivcc.edu  

COURSE DESCRIPTION:  
Students will gain basic hands-on experience using the integrated programs of Microsoft Office 2013. This course is designed to use the basic features of Word, Excel, Access, and PowerPoint, and to integrate data between the applications. The course also provides instruction on basic computer concepts and the basics of the Windows 7 Operating system. Lecture, 2 hours per week; lab, 2 hours per week. All assignments have due dates and will not be available to complete after the due date.  

PREREQUISITE: None (however, it is strongly recommended that you have already taken CSP-1230 Beginning Keyboarding, CSP-1206 Computer Skills or have equivalent skills.)  

REQUIRED TEXTBOOK:  
The textbooks come in a bundle, and also include an access code to Pearson’s MyITLab. This access code is necessary to complete homework assignments.  

ADDITIONAL MATERIALS AND EQUIPMENT  
Students will need to have access to a computer with Microsoft Office 2013 Professional (Word, Excel, Access, and PowerPoint), web and IVCC Student email access. Students will need to supply their own media to store their working and finished student files. It is recommended you have a USB Flash drive and regularly back that up on your home computer. During the duration of the course it is strongly recommended that each student keep a copy of all their work. There are student data files that accompany the Office 2013 textbook. These files can be accessed via the Internet at the Companion Web Site: www.pearsonhighered.com/go, via my faculty website: www.ivcc.edu/jauch or on the Student Share Drive accessible on the IVCC Network. You might want to copy the data files to your USB drive so you always have them with you. This will be explained to you on the first day of class.
MYITLAB AND BLACKBOARD
This course utilizes both Blackboard and MyITLab. Both of these are computer based platforms used for the student to interact with the course. Quizzes and examinations are taken in Blackboard while Chapter homework assignments are submitted in MyITLab. Both of these programs grade the material students submit. While they both do a good job at grading, at times there can be errors. If you feel you may not have been graded correctly, notify me and I can check this out. You can see the material you submit to MyITLab grader and see what is counted wrong. If it appears you did the material as instructed, let me know and I can check this out. You will need an access code to register in MyITLab. The MyITLab access code is purchased at the IVCC Bookstore with your textbook packet. You will also need the course number information and that will be provided in Blackboard, as well as instructions on how to register and enroll in MyITLab. You won't need to use this until Week 3 of this course, however registering early allows you access to the PowerPoint presentations and other study materials for each textbook chapter. It will also help identify any issues you might have with registering. The code is valid for 1 semester. This code is how you register on the Pearson MyITLab web site for your weekly assignments.

Logging into MyITLab: You may access MyITLab by using any one of the following web browsers in Windows; Internet Explorer(v10), Chrome(v23+), Firefox(v17+). You can use one of the following if you are using Mac OS X; Safari(v6+), Chrome(v23+), or Firefox(V17+). In the address bar type the URL, http://www.pearsonmylabandmastering.com/northamerica/ to get to the MyITLab and Mastering login page. At the MyITLab and Mastering login page, go to the “Student” section found on the center right of the web page. This provides you with several help topics for using MyITLab. After doing this, you will go to the “Register” section found on the right side of the page in the center. You will need the following information to register. When registering, use your IVCC Student email address for your email and username. Make sure you write down your password as I have no access to reset this. If you have any trouble with your username and password after registering, you will have to utilize the Pearson MyITLab Help Desk. You will also need the following Course ID to enroll in my class jauch####. You will use the Access code found in your textbook bundle to complete your registration.

Blackboard: You will use Blackboard to receive important documents from the instructor and other support documentation. Your instructor will enter your homework grades in the Blackboard Grade Book. IVCC highly recommends that you utilize the Mozilla Firefox browser instead of Internet Explorer or Safari to access Blackboard for this portion of the course. If you do not have Firefox installed on your computer, you can download version 19 via the IVCC website https://www.ivcc.edu/studenthelpdesk.aspx?id=16944. After installing Firefox, start the program and type the following URL into the address bar: https://ivcc.blackboard.com/webapps/login. This will get you to the logon screen for IVCC's Blackboard. You can also access the Blackboard login screen by going to the IVCC main page and clicking on the link for Blackboard under the “IVCC Students” section.

OFFICE HOURS:
My office is located on the Main Campus, A-326. Hours I can be available for the Spring 2014 semester will be posted on my Faculty Web Page. If these times are not convenient, Students may
contact me via email at Chris_Jauch@ivcc.edu, and we can make other arrangements. I am on the campus several days of the week, so email me and we can make arrangements if necessary.

METHOD OF EVALUATION:
1. Classroom Participation
2. Homework in MyITLab
3. Chapter quizzes
4. Lab Participation and Assignments
5. Written Examinations

ASSIGNMENTS:
Weekly Homework: You will have homework assignments for each Chapter in MyITLab. Complete your weekly assignments in the order listed in that week’s task list. You will submit these assignments and MyITLab will grade them. We will go through the first one in class so you are familiar with the method for downloading, submitting and checking your grade. You will be moving between Blackboard, MyITLab and your personal computer each week to complete your work.

Failure to submit an assignment will result in zero points. Late assignments will result in the automatic deduction of points. All homework is due to either MyITLab or Blackboard by 11:59pm on the due date unless you and I have specifically arranged for a different due date. Do not wait until the last minute to submit your assignments. Earlier submissions allow you to deal with any technology problems, if they arise. It is not unusual for Blackboard and/or MyITLab to experience downtime. While scheduled downtime is posted in advance, there have been emergency outages that can impact your submissions.

Quizzes and Examinations: Quizzes for each of the chapters in the text will be taken in Blackboard. These quizzes are a learning tool and may be taken more than once to enhance the learning. Blackboard will record your highest score. The quizzes will no longer be available to students after the due date.

Section examinations for the four major sections of the text, Word, Excel, Access, and PowerPoint will also be found in Blackboard. Each of these exams are timed for a maximum amount of time (indicated on each exam). You can only take each of these exams once. Once you click on each Blackboard exam, the clock is activated. Your score will automatically be recorded in the Blackboard Grade Book.

GRADING:
The grading scale is the standard letter grade scale and is calculated based on the following information. The course has a total of 805 points available. The point values are broken down in the following chart:

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chapter Quizzes</td>
<td>225</td>
</tr>
<tr>
<td>MyITLab homework</td>
<td>120</td>
</tr>
<tr>
<td>Textbook Lab Projects</td>
<td>60</td>
</tr>
<tr>
<td>Major Section Examinations</td>
<td>400</td>
</tr>
<tr>
<td>Point Total</td>
<td>805</td>
</tr>
</tbody>
</table>
Final grades are assigned based upon the student's accumulated points. Points will be awarded for exams, quizzes, and homework assignments using the factors of completeness, timeliness and accuracy. A student can determine his current grade based on the number of points earned divided by the total number of points available up to that point in the course. Final letter grades will equate to the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
<th>Points Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90% - 100%</td>
<td>721-805 points</td>
</tr>
<tr>
<td>B</td>
<td>80% - 89%</td>
<td>640-720 points</td>
</tr>
<tr>
<td>C</td>
<td>70% - 79%</td>
<td>560-639 points</td>
</tr>
<tr>
<td>D</td>
<td>60% - 69%</td>
<td>479-559 points</td>
</tr>
<tr>
<td>F</td>
<td>Below 60%</td>
<td>less than 479 points</td>
</tr>
</tbody>
</table>

**DISABILITY STATEMENT:**
This course is designed to support diversity of learners. My hope is to create a safe environment for all students. If you want to discuss your learning experience, please talk to me as early in the term as possible. If you know you have, or suspect you have a disability (learning disability, physical disability, or psychiatric disability such as anxiety, depression, AD/HD, or others) for which you may need accommodations, please contact the Disability Services Office in B-204. Tina Hardy tina_hardy@ivcc.edu, 224-0284 or Judy Mika Judy_Mika@ivcc.edu or 224-0350 work in that office and can help determine if you are eligible for support.

**CLASSROOM RULES:**
**Attendance** – I expect you to be in class. I will be there, and so should you. If you cannot be in class, please notify me via email either before class or as soon as possible. Failure to attend class will result in your inability to be prepared. Repeated absences **may** result in involuntary withdrawal from the course. I also understand there may be extenuating circumstances that might occur on an emergency basis that could cause you to be late for class. A few minutes can be excused; however more than a few minutes is not showing respect for your fellow students. Class will start promptly at 1:00 p.m. Students should be in the classroom and seated prior to that time.

**Inappropriate Behavior** – I expect each of you to conduct yourselves in a manner appropriate for adult college students and not be disruptive to the class. I will not tolerate inappropriate behavior during the class period. If I catch anyone being disruptive, I will warn you first. Subsequent behavior will result in my asking you to leave the classroom. Continued behavior will result in points being deducted from your grade. Inappropriate behavior is defined as any behavior that:
- Interferes with other students' ability to learn
- Interferes with the instructor's ability to teach

This includes the use of cell phones, pagers and other electronic devices. As a parent, I understand the need to be available in case of emergency. Make sure these devices are set to vibrate, silent or turned off. Only emergency calls will be accepted. Texting will not be tolerated during class hours. During laboratory periods, the computers will not be used to visit social media sites or conduct outside business. This class experience is preparing you for the workplace and inappropriate behavior is not tolerated there either. I've signed a contract to teach and will give it my all. I expect you to do the same in participating in the educational experience.
**Academic Dishonesty** - It is the responsibility of each student to respect the academic integrity of each class by doing their own work and refusing to assist others in deception. Cheating, copying, fabrication and plagiarism are forms of academic dishonesty. The facilitating of academic dishonesty is also a violation. Students that are caught in any of the above listed violations you will be dealt with. First violations will result in a zero on the assignment. Second violations will result in a drop of one letter grade. Subsequent violation will result in an automatic withdrawal from the class and failure. These violations will also be reported to the Dean of Workforce Development. Further information can be found in the Student Code of Conduct located in the Student Planner.

**Withdrawals** - Effective Summer 2011, students will have the ability to initiate a withdrawal from classes. By completing the form in the Records Office or through the form located within WebAdvisor, the student is authorizing IVCC to remove him/her from the course. Entering the student ID number serves as the student's electronic signature. IVCC has the right to rescind a withdrawal in cases of academic dishonesty or at the instructor's discretion. They can access it through "My Class Schedule" and through the "Register and Drop" page on the Student Menu. Admissions & Records office will send a confirmation email to the student's K email address and also to the faculty member once the withdrawal is processed if it is received electronically. Students should be aware of the impact of a withdrawal on full-time status for insurance purposes and for financial aid. It is highly recommended that students meet with their instructor or with a counselor before withdrawing from a class to discuss if a withdrawal is the best course of action for that particular student. The instructor still reserves the right to voluntarily withdraw students in accordance to the above listed attendance policy. More detailed information is available at www.ivcc.edu/admissions and selecting the menu item for Withdrawals on the left side of the page. The last date to withdraw from class is Thursday, April 10, 2014.

**Please note:** Effective Summer 2011, all students will be responsible for checking their IVCC Student email. All electronic college correspondence will only be sent to the IVCC email. This is the only address the college or your instructors will use. For information on accessing this account click on the MY IVCC link on the IVCC homepage and select Student E-Mail or go to the Learning Commons, D-201.
**COURSE OUTLINE/ASSIGNMENTS CALENDAR:**
The following is a tentative course outline and calendar. You are expected to read ahead in the text to be able to successfully participate in classroom discussions, as well as to prepare for quizzes and examinations. Due to the possibility of extended class discussions or other scheduling conflicts, this schedule may be modified during the semester. **Make note of all quiz, exam, and homework due dates.**

| **WEEK 1** | 1/13-1/21 | 1. Course introduction - syllabus review  
2. Text - Read Chapter 1 (pp.1-47) **nothing to submit to the instructor**  
3. Complete the Blackboard "Concepts Quiz" that goes along with this chapter. It is located in your Blackboard Course under the "Assignments/Quizzes" tab on the left of the screen.  
4. **Complete the quiz by Tuesday, January 21, 2014.**  
5. Myitlab has PowerPoint Presentations that go along with the Concepts textbook.  
6. **Note** - All Blackboard Quizzes are set so that you can retake them. Your score from your highest attempt will be listed in your Blackboard grade book. | TEXT: Go! Basic Computer Concepts Getting Started, Chapter 1 |
| **WEEK 2** | 1/22-1/28 | 1. Text - Read Chapter 1 (pp. 1-53)  
2. Complete the Blackboard "Windows 7 Quiz" that goes along with this chapter. It is located in your Blackboard Course under "Assignments/Quizzes" tab on the left of the screen.  
3. **Complete the quiz by Tuesday, January 28, 2014.**  
4. Myitlab has PowerPoint Presentations that go along with the Windows 7 textbook. | TEXT: Go! Windows 7 Getting Started, Chapter 1 |
| **WEEK 3** | 1/29-2/4 | 1. Text - Read Chapter 1 (pp. 71-113) - Introduction to Microsoft Office 2013 Features.  
2. Go to MyITLab for Week 3 and read/print out the PowerPoint summary for reference.  
3. Complete the Blackboard Quiz for Go! Chapter 1 “Introduction to Microsoft Office 2013 Features”. (Blackboard will grade and record your correct points in the Blackboard grade book).  
4. **Complete the quiz by Tuesday, February 4, 2014.**  
5. **Note:** In MyITLab there is an OPTIONAL tutorial that you can utilize to learn features presented in this week's lesson. It is a non-graded assistant for your use.) | TEXT: Go! with Microsoft Office 2013, Volume 1  
**Note:** All assignments for the remainder of the semester will be from this text. From this point forward, MyITLab Grader homework will be used from this point forward. |
Lab assignments:

6. Project Office 1A (pp. 72-90)
7. Save your file as: **Lastname_Firstname_1A_Note_Form**
8. Save your Lab assignments on your USB drive.
9. Project Office 1B (pp. 91-113)
10. Save your file as: **Lastname_Firstname_1B_Rehearsal_Dinner**
11. Save your Lab assignments on your USB drive.
12. **MyITLab** - there is no assignment in MyITLab for this week. Make sure that you have correctly enrolled in this course. Contact me or MyITLab at 1-800-677-6337 if you have questions.

Lab assignments:

6. Project 1A (pp. 122-137)
7. Save your file as: **Lastname_Firstname_1A_Flyer**
8. Save your Lab assignments on your USB drive.
9. Project 1B (pp. 140-156)
10. Save your file as: **Lastname_Firstname_1B_Programs**
11. Save your Lab assignments on your USB drive.
12. **MyITLab**: Go to the Week 4 folder and download the Homework Project. Once you start the Grader Project, it is recommended that you do not step away from it until you are finished submitting it. Your submission will be automatically scored as a percentage and recorded in the MyITLab Grade Book. You can re-submit this same exercise 3 more times to improve your score. Your highest score will be recorded in the MyITLab Grade Book. Complete the homework project by **Tuesday, February 11, 2014**.
### WEEK 5  2/12-2/23

1. **Text** - Read WORD Chapter 2 (pp. 179-212) - "Using Tables and Templates to Create Resumes and cover Letters"
2. Go to MyITLab for this week and read/print out the PowerPoint summary for reference.
3. **Note:** In MyITLab for each week there is an **OPTIONAL** tutorial that you can utilize to learn features presented in this week's lesson. It is a non-graded assistant for your use.
4. Complete the Blackboard Quiz for WORD Chapter 2 WORD. (Blackboard will grade and record your score in the grade book).
5. Complete the quiz by **Sunday, February 23, 2014**.

**Lab assignments:**
6. Project 2A (pp. 180-192)
7. Save your file as:
   - `Word_2A_Lastname_Firstname_2A_Resume`
8. Save your Lab assignments on your USB drive.
9. Project 2B (pp. 195-212)
10. Save your file as:
    - `Lastname_Firstname_2B_Cover_Letter`
    - `Lastname_Firstname_2B_Reference_List`
11. Save your Lab assignments on your USB drive.

12. **MyITLab:** Go to the Week 5 folder and download the Homework Project. Once you start the Grader Project, it is recommended that you do not step away from it until you are finished submitting it. Your submission will be automatically scored as a percentage and recorded in the MyITLab Grade Book. You can re-submit this same exercise 3 more times to improve your score. Your highest score will be recorded in the MyITLab Grade Book. Complete the homework project by **Sunday, February 23, 2014**.

### WEEK 6  2/24-3/2

1. **Text** - Read WORD Chapter 3 (pp. 237-274) - "Creating Research Papers, Newsletters, and Merged Mailing Labels"
2. Go to MyITLab for this week and read/print out the PowerPoint summary for reference.
3. **Note:** In MyITLab for each week there is an **OPTIONAL** tutorial that you can utilize to learn features presented in this week's lesson. It is a non-graded assistant for your use.

**TEXT:** Go! with Microsoft Office 2013, Volume 1
4. Complete the Blackboard Quiz for WORD Chapter 3. (Blackboard will grade and record your score in the grade book).

**Lab assignments:**
6. Project 3A (pp. 238-253)
7. Save your file as:
   Lastname_Firstname_3A_Quantitive_Technology
8. Save your Lab assignments on your USB drive.
9. Project 3B (pp. 255-274)
10. Save your file as:
    Lastname_Firstname_3B_Environment_newsletter
    Lastname_firstname_3B_Mailing_labels
    Lastname_Firstname_3B_Addresses
11. Save your Lab assignments on your USB drive.

12. **MyITLab:** Go to the Week 6 folder and download the Homework Project. Once you start the Grader Project, it is recommended that you do not step away from it until you are finished submitting it. Your submission will be automatically scored as a percentage and recorded in the MyITLab Grade Book. You can re-submit this same exercise 3 more times to improve your score. Your highest score will be recorded in the MyITLab Grade Book. Complete the homework project by Sunday, March 2, 2014.

13. Take the **Word Major Exam** in Blackboard (Assignments/Exams)
   ✓ This examination covers all three chapters of Word from the text. You can only take this exam 1 time! You are timed (1 hour 15 minutes).
   ✓ Complete the examination by Sunday, March 2, 2014.

**WEEK 7  3/3-3/16**

Your submission will be automatically scored as a percentage and recorded in the MyITLab Grade Book. You can re-submit this same exercise 3 more times to improve your score. Your highest score will be recorded in the MyITLab Grade Book. Complete the homework project by **Sunday, March 30, 2014**.
13. Take the **Excel Major Exam** in Blackboard (Assignments/Exams)
   - This examination covers all three chapters of Excel from the text. You can only take this exam 1 time! You are timed (1 hour 15 minutes).
   - Complete the examination by **Sunday, March 30, 2014**.

| WEEK 10 | 3/31-4/6 | 1. Text - Read ACCESS Chapter 1 (p. 487-531) - “Getting Started with Access 2013”
2. Go to MyITLab for this week and read/print out the PowerPoint summary for reference.
3. **Note:** In MyITLab for each week there is an **OPTIONAL** tutorial that you can utilize to learn features presented in this week's lesson. It is a non-graded assistant for your use.
4. Complete the Blackboard Quiz for Access Chapter 1. (Blackboard will grade and record your score in the grade book).
5. **Complete the quiz by Sunday, April 6, 2014.**

**Lab assignments:**
6. Project 1A (pp. 488-517)
7. Save your file as:
   - **Lastname_Firstname_1A_Advising**
8. Save your Lab assignments on your USB drive.
9. Project 1B (pp. 520-531)
10. Save your file as:
   - **Lastname_Firstname_1B_Student_Workshops**
11. Save your Lab assignments on your USB drive.

12. **MyITLab:** Go to the Week 10 folder and download the Homework Project. Once you start the Grader Project, it is recommended that you do not step away from it until you are finished submitting it. Your submission will be automatically scored as a percentage and recorded in the MyITLab Grade Book. You can re-submit this same exercise 3 more times to improve your score. Your highest score will be recorded in the MyITLab Grade Book. Complete the homework project by **Sunday, April 6, 2014**.

| WEEK 11 | 4/7-4/13 | 1. Text - Read ACCESS Chapter 2 (pp. 561-609) - “Sort and Query a Database”
2. Go to MyITLab for this week and read/print out the PowerPoint summary for reference.

**TEXT:** Go! with Microsoft Office 2013, Volume 1
3. **Note:** In MyITLab for each week there is an **OPTIONAL** tutorial that you can utilize to learn features presented in this week's lesson. It is a non-graded assistant for your use.

4. Complete the Blackboard Quiz for Access Chapter 2. (Blackboard will grade and record your score in the grade book).

5. Complete the quiz by Sunday, April 13, 2014.

### Lab assignments:

6. Project 2A (pp. 562-584)

7. Save your file as:  
   **Lastname_Firstname_2A_Instructors_Courses**

8. Save your Lab assignments on your USB drive.

9. Project 2B (pp. 587-609)

10. Save your file as:  
    **Lastname_Firstname_2B_Athletes_Scholarships**

11. Save your Lab assignments on your USB drive.

12. **MyITLab:** Go to the Week 11 folder and download the Homework Project.
